

average residential ESS price per 50kWh in Bahamas

How much does electricity cost in the Bahamas? In fact, The Bahamas has one of the highest electricity rates in the Caribbean, with an average cost of around \$0.36 per kilowatt-hour (kWh) in . This is significantly higher than the regional average of \$0.25 per kWh and has placed a considerable burden on both households and businesses. Why is the Bahamas struggling to diversify its energy mix? One of the key challenges facing The Bahamas in its quest to diversify its energy mix is the high cost of electricity, which is primarily driven by the country's reliance on imported oil for power generation. How can the Bahamas accelerate its energy transition? By actively participating in these initiatives and learning from the experiences of its regional neighbors, The Bahamas can accelerate its own energy transition and reap the benefits of a cleaner, more affordable, and more secure energy future. SOURCE: The residential electricity price in the Bahamas is BSD 0.281 per kWh or USD 0.281. The electricity price for businesses is BSD 0.354 kWh or USD 0.354. These retail prices were collected in December and include the cost of power, distribution and transmission, and all taxes and The residential electricity price in the Bahamas is BSD 0.281 per kWh or USD 0.281.
