How does electricity cost in Singapore? Understanding Electricity Costs: Singapore's electricity prices are influenced by global energy prices, as the country imports over 95% of its energy needs. Monthly Electricity Expenses: The average monthly electricity bill in Singapore varies by residence size, with electricity making up about half of the total utilities cost. What is the uniform Singapore Energy price (Usep)? The Uniform Singapore Energy Price (USEP) is the half-hourly energy price in the Singapore Wholesale Electricity Market. Energy withdrawal from the national grid is settled at the USEP. Since , various measures were introduced to enhance Singapore's energy security and resilience. How will energy developments affect Singapore's electricity prices? As a resource-constrained country, Singapore relies on imported natural gas for around 95% of our electricity supply. This means that energy developments around the world will impact our domestic electricity prices. How is electricity sold in Singapore? Singapore's electricity is bought and sold through the Energy Market Company (EMC) in the National Electricity Market of Singapore (NEMS). EMC is the exchange for wholesale electricity trading, providing a transparent and competitive trading platform and the governance for the market. Note: All prices are in Singapore Dollar before GST. How much does regulated electricity cost in Singapore? The regulated electricity tariff set by SP Group for 1 October - 31 December now stands at 31.72 cents per kWh (incl. GST).
