

The programme called "Storage Systems in Businesses" will allow commercial and industrial (C& I) parties to receive grant funding for new projects that envisage coupling new solar parks with energy storage units or integrating batteries into existing photovoltaic (PV) parks. The Greek government has opened for applications a programme that will subsidise businesses to install energy storage systems, either as part of new solar projects or as an addition to existing plants. Battery energy storage systems (BESS) License: CC0 1.0 Universal (CC0 1.0) Public Domain

The Greek Ministry of Environment and Energy's Storage Systems in Businesses program opened this week for the submission of applications, with a budget of EUR 153.7 million (\$157.7 million). From ESS News The Greek Ministry of Environment and Energy said on January 13 that the Storage Systems in Greek renewable energy company Faria Renewables is looking to the financial sector for backing to build its planned battery energy storage system (BESS) with a power output of 49.9 MW and a storage capacity of 134.16 MWh. Faria has signed a loan agreement with Greek bank Attica Bank to finance the

The new plan, prepared by the Ministry of the Environment and Energy, calls for installing 4,700 MW of standalone battery projects across the country, equal to the entire projected capacity until under the country's National Climate and Energy Plan (NECP). More specifically, 3,800 MW will be

On 13 March, the Greek government issued Ministerial Decision YPEN/GDE/28255/ (Government Gazette /B/13.03.) on the priority regime for the final grid connection of standalone BESS projects. The decision describes the conditions a BESS owner has to meet to submit a "priority"

Greece's new EUR153.7M subsidy program for C& I battery energy storage. Learn how businesses can benefit and how ACE Battery provides tailored storage solutions to maximize savings and efficiency. Apply by February 28, !

On January 13, the Greek Ministry of Environment and Energy announced the Greece opens EUR-153.7m subsidy scheme for batteries

The Greek government has opened for applications a programme that will subsidise businesses to install energy storage systems, either as part of new solar projects or

Greece launches C& I battery storage subsidy program

It subsidizes the installation of battery storage systems coupled with both planned and existing photovoltaic systems. In both cases, only the storage system is subsidized. Greek developer secures loan for 134 MWh battery

In March, the government published the results of the third national auction for standalone BESS, which saw participation from Greek companies such as Hellenic Renewables, Arcadia Storage, Enerkoplan

Greece plans 4.7 GW of commercial battery storage

The much-awaited ministerial decree for zero-subsidy standalone battery systems has been published in Greece. So far, Greece has provided support to 900 MW of standalone storage projects under three

BESS projects in Greece: New Ministerial Decision boosts

On 13 March, the Greek government issued Ministerial Decision YPEN/GDE/28255/ (Government Gazette /B/13.03.) on the priority regime for the

Greece Begins C& I Battery Energy Storage Subsidy Program
