

Which Romanian companies are adding Bess to their renewable assets? Other Romania-based companies, such as Parapet and Waldevar Energy, have told pv magazine that adding BESS to their renewable assets is a top priority. The May edition of pv magazine features an in-depth look at Romania's solar and energy storage markets. Will Aukera energy secure debt financing for a Bess project? Head of storage Bozkurt Aydinoglu, has told NPM that Aukera Energy is in conversations with potential lenders as it looks to secure debt financing for a 299.75 MWh BESS project that it is developing in Ialomița county, Romania. How much funding is available for Bess projects? EUR79.6 million (US\$85.7 million) in funding is available for the BESS projects. The call has been relaunched by the Ministry after an initial launch in had been expected to see projects selected by the end of last year. That original call had been for around 620MWh or more of storage, as announced by the Ministry of Energy in November . When will a Bess project enter the market? Based on its modeling, Aurora foresees double digit internal rates of return for standalone BESS projects entering the market as early as , while co-located assets could prove even more promising - especially post where rising saturation in the balancing markets is observed, it said. Is Romania a Bess market? "As other European BESS markets become increasingly saturated, Romania stands out," said Evangelos Gazis, Aurora's head of Southeastern Europe, adding that the investment case for storage is strengthened by wind and solar's rapid expansion driving high volatility in wholesale and balancing markets. Interesting activity Is the Bess market heating up in Romania? The BESS market in Romania is heating up, say local analysts and insiders. Irene Mihai, policy officer at the Romanian Photovoltaic Industry Association (RPIA) recently told pv magazine that a realistic target for the utility-scale BESS segment in Romania "would be around 2 GWh (around 1 GW of installed capacity)" for . Big things ahead for Romanian BESS investments Based on its modeling, Aurora foresees double digit internal rates of return for standalone BESS projects entering the market as early as , while co-located assets could Romania relaunches call for investment in batteries for The Ministry made its announcement yesterday (8 February), aiming to get the 2-hour duration battery energy storage system (BESS) facilities up and running by mid-. Romania targets 5 GW of installed BESS capacity by Specifically, Romania allocated EUR 80 million (USD 87m) under its National Recovery and Resilience Plan for an energy storage programme expected to award 1.8 GW of capacity. Submitted projects as part Romania's BESS Landscape: Key takeaways from the report by For battery developers, this approach offers a long-term income floor, which is crucial when negotiating project finance. This is the way the Republic of Moldova seems to INTERVIEW: Aukera Energy raising finance for 299.75 MWh Head of storage Bozkurt Aydinoglu, has told NPM that Aukera Energy is in conversations with potential lenders as it looks to secure debt financing for a 299.75 MWh BESS project that it is Aurora's Flexible Energy Forecast: Romania, Next BESS Hotspot BESS are a new development in Romania and their operation, market participation, and financing as well as deployment are uncertain. There is currently a lack of R.Power secures grant for 254MWh Romania BESS R.Power secures grant for 254MWh Romania BESS Developer and IPP R.Power has

received EUR15 million (US\$15.6 million) in non-reimbursable state financing to build a 2-hour BESS BBDF : Understanding BESS project bankability Financing remains one of battery energy storage system's (BESS) biggest talking points, as bankability, risk mitigation, insurance, and more. The BESS Brief - Part 2: BESS Financing is Entering a New Phase Today, we are seeing non-recourse project finance for 600+ MW portfolios, mezzanine debt entering the capital stack, and public banks co-financing with private lenders. Containerized Battery Energy Storage System Discover the benefits and features of Containerized Battery Energy Storage Systems (BESS). Learn how these solutions provide efficient, scalable energy storage for various applications. Romania relaunches call for investment in batteries for The Ministry made its announcement yesterday (8 February), aiming to get the 2-hour duration battery energy storage system (BESS) facilities up and running by mid-. A technical guide for selection criteria has been Electrica to build partially EU-funded 70MWh BESS in DNO and IPP Electrica has received EUR3.4 million (US\$3.8 million) in EU grants for a c.70MWh BESS project it will build in Romania. The listed company has won the grant funding from Romania's portion of the EU The Romanian Ministry of Energy has Reissued Two The objective of the call is to put into operation a minimum of 240 MW of electricity storage in batteries, which equals 480 MWh, by June 30, . The aim is to contribute to Romania's National Recovery and Resilience HiTHIUM Launches ?Power Flexsso: A Transport-Optimized, 10-Foot BESS The system also strengthens project bankability with HiTHIUM's tailored financing options and end-to-end service support, helping developers and operators streamline Making project finance work for battery energy storage projects Why securing project finance for energy storage projects is challenging It has traditionally been difficult to secure project finance for energy storage for two key reasons. Firstly, the nascent Romania's BESS Landscape: Key takeaways from the report by Hybrid investment portfolios -- often structured to include both generation and storage -- are primarily used to support the financing of standalone BESS. Colocated projects
