

Globeleq and African Rainbow has raised \$300 million (ZAR 5.4 billion) in debt financing from Absa and Standard Bank for the BESS project. Globeleq's Red Sands Battery Energy Storage Project With the support of Absa and Standard Bank, we are one step closer to achieving our objective of utilizing modern and renewable energy technologies to provide affordable electricity in South Africa and on the African continent, whilst South Africa's largest standalone battery storage project The project was selected as a preferred bidder in following the first BESS public procurement bidding round, and is being developed by Globeleq in partnership with South Africa: Key contracts for 'Africa's largest standalone BESS Building on over a decade of renewable energy leadership in South Africa and our Cuamba solar-plus-storage plant in Mozambique, we're integrating battery storage across Africa's Largest Battery Energy Storage Project Red The Red Sands project will be the largest standalone BESS to reach this stage on the continent, designed to store power during off-peak Globeleq to build Africa's largest BESS Globeleq, the Africa-based power company owned by British International Investment and Norfund, and its project partner African Rainbow Energy, have achieved financial close on a 153MW/612MWh utility-scale Magnora ASA: Globeleq reaches financial close for the 153MW MWh Red Sands battery storage (BESS) project, developed originally by African Green Ventures (AGV), the South African development arm of Magnora. Globeleq acquired the Red Sands BESS Project Secures R5.4bn Financing, Set to The ambitious 153 MW/ 612 MWh Red Sands battery energy storage system (BESS) project, poised to become Africa's largest standalone facility of its kind, has reached Fin close reached for 153-MW Red Sands BESS Independent power company Globeleq and its partner African Rainbow Energy have secured ZAR 5.4 billion (USD 306.1m/EUR 260m) in loans for their 153-MW/612-MWh Red Sands battery in South Africa's Northern Cape Bids received for Bid Window 3 of battery storage A fifth bidder under the BESIPPPP Bid Window 1 was announced in April at the Eskom Garona substation. This one, Red Sands BESS, will provide 153MW battery energy storage capacity and be Globeleq's Africa BESS: financial close for 1 GWh, 300 MWh Three South African battery energy storage systems (BESS) projects totaling 1.28 GWh of storage have achieved financial close following a 7-billion-Rand (\$387m) debt fund raise. The trio, known as Oasis 1, will enter into South Africa: Key contracts for 'Africa's largest standalone BESS The Red Sands BESS commercial close has been achieved by signing project agreements with the Department of Electricity and Energy and the National Transmission Battery Energy Storage System Eskom BESS rollout project is the largest to be implemented in Africa. This is a direct response to the urgent need to address South Africa's long running electricity challenges, by transforming and strengthening grid capacity through All-in-One Containerized Battery Energy Storage System Market The All-in-One Containerized Battery Energy Storage System (BESS) market is experiencing robust growth, projected to reach \$8.841 billion in and maintain a Compound Annual Scatec secures Haru BESS project in South Africa Scatec ASA has secured preferred bidder status for the Haru Battery Energy Storage System (BESS) project under South Africa's third bid window of the Battery Energy 153MW/612MWh! Energy Storage Firm

Secures Order for Africa's On May 26, Sungrow and Globeleq, a leading independent power producer in Africa, proudly announced the signing of a Battery Energy Storage System (BESS) supply Red Sands ESIPPPP Project The Red Sands project is located in the Northern Cape, about 100km southeast of Upington, and will be the largest standalone battery energy storage system in Africa to reach financial close, and Globeleq's first large-scale BESS project in Africa's largest standalone battery project moves A 153 MW/612 MWh battery energy storage system (BESS) planned for South Africa has taken a step forward with the signing of a supply and long-term service term sheet. AMEA Power Secures Two Major BESS Projects in South Africa AMEA Power, a leading renewable energy developer based in the United Arab Emirates, has secured two significant battery energy storage system (BESS) projects in South South Africa signs off on 612 MWh Red Sands battery Described as Africa's biggest standalone battery energy storage system (BESS) to reach commercial close, the Northern Cape project was constructed by the development Africa's largest standalone battery project moves A 153 MW/612 MWh battery energy storage system (BESS) planned for South Africa has taken a step forward with the signing of a supply and long-term service term sheet. South Africa signs off on 612 MWh Red Sands battery Described as Africa's biggest standalone battery energy storage system (BESS) to reach commercial close, the Northern Cape project was constructed by the development finance bodies of the United Kingdom and Mulilo and Scatec awarded projects in South Africa's Mulilo and Scatec have won the five battery energy storage system projects offered in South Africa's latest battery energy storage independent power producers' procurement (Besippp) round.
