

How much electricity will Songa energy supply in Burundi? They will supply over 62 GWh of clean, baseload electricity to the national grid annually. Songa Energy is part of Anzana Electric Group's broader portfolio in Burundi. This includes Weza Power - an electricity distribution utility that aims to connect over two thirds of the population (around 9 million people) over the next 7 years. Will Burundi reach universal access by 2030? In a context where the Government of Burundi (GoB) has developed an ambitious program to reach universal access by 2030, the Bank is actively supporting that program along with other donors and this additional financing will provide more capacity to supply additional customers that will be connected through that program. How will a new energy project boost the country's energy generation capacity? The financing will support the construction of the 1.65MW Upper Ruvyironza project and the 9MW Upper Mulembwe project - together, they will boost the country's energy generation capacity by around 10% and will start supplying the national grid in 2025 and 2026 respectively. Why is Burundi's economic growth stalling? WASHINGTON, January 10, 2024 -- Although Burundi's economic growth is steadily improving, efforts risks stalling due to lack of access to electricity which affects households, industries, and commercial premises. Bujumbura, 11 February - TDB Group and Anzana Electric Group ("Anzana") announce the financial close and first utilization of a portfolio project debt package for two run-of-river hydropower projects in Burundi developed by Songa Energy. Bujumbura, 11 February - TDB Group and Anzana Electric Group ("Anzana") announce the financial close and first utilization of a portfolio project debt package for two run-of-river hydropower projects in Burundi developed by Songa Energy. Bujumbura, 11 February - TDB Group and Anzana Electric Group ("Anzana") announce the financial close and first utilization of a portfolio project debt package for two run-of-river hydropower projects in Burundi developed by Songa Energy. This USD 35 million 10.65MW long-term debt financing Our portfolio company, Anzana Electric Group, has raised US\$35m in debt funding from Trade and Development Bank Group (TDB) for two hydropower projects in Burundi. The deal represents Burundi's largest long-term project financing and will play a vital role in a country where only 12% of the small hydropower (SHP) development in Burundi. The Guide is organised into four main sections: 1) introduction; 2) financial analyses for concrete business examples. The two Model Business Cases included in this package analyse: 1) a tea factory that develops a SHP project to power its operations; This report provides an overview of investment opportunities in Burundi, following KTA-Noa Advocates' participation in a roundtable discussion. The roundtable explored the alignment of investment initiatives with the revised National Development Plan (PND) -, Burundi's Vision 2050, and the Additional financing of \$50 million for the BI-Jiji and Mulembwe Hydropower Project (PHJIMU) will continue support for the government's overarching goal of boosting electricity access through three strategic areas: (i) increasing renewable energy supplies, (ii) expanding electricity access in rural London, United Kingdom, 5 June - At the launch of Burundi's National Energy Compact during the Mission 300 (M300) Private Sector Consultation in London, Anzana Electric Group and the African Development Bank announced a \$600,000 project

development grant from the Sustainable Energy Fund for TDB Group and Anzana Electric Group
Announce Bujumbura, 11 February - TDB Group and Anzana Electric Group ("Anzana")
