

domestic energy storage tender price in Bulgaria 2025

Why is energy storage growing in Bulgaria? Energy storage in Bulgaria is expanding rapidly as the government awards nearly 10 GWh of capacity to 82 projects, boosting renewable energy reliability and grid stability. How much money will be invested in Bulgaria's electricity system? Energy minister Vladimir Malinov said the investments, worth up to BGN1,153,939,700 (US\$657.4 million) "will guarantee the security and stability of the Bulgarian electricity system." Tender bids must be submitted electronically, with more information available on this portal. How much is the energy investment in Bulgaria worth? The ministry released a statement a day prior to the application window's opening. Energy minister Vladimir Malinov said the investments, worth up to BGN1,153,939,700 (US\$657.4 million) "will guarantee the security and stability of the Bulgarian electricity system." How much money does the NRRP provide for energy projects in Bulgaria? Under the RESTORE initiative, launched through Bulgaria's National Recovery and Resilience Plan (NRRP), the Ministry of Energy has selected 82 projects that will collectively receive BGN 1.15 billion (approximately \$675 million) in public funding. How will the selected storage systems be distributed in Bulgaria? The selected storage systems will be geographically distributed across Bulgaria and connected either to the national transmission grid or local distribution networks. All awarded projects must be operational by March . The program is set to cover up to 50% of costs, but no more than EUR 190,000 per MWh, excluding value-added tax. The public call would be for individual projects for 10 MW to 300 MW in operating power and storage duration of at least two hours, translating to 20 MWh to 600 MWh in The program is set to cover up to 50% of costs, but no more than EUR 190,000 per MWh, excluding value-added tax. The public call would be for individual projects for 10 MW to 300 MW in operating power and storage duration of at least two hours, translating to 20 MWh to 600 MWh in Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount. Bulgaria will finance 82 standalone renewable energy storage projects worth over 1.15 billion leva (\$675 million) under its Bulgaria is taking bold steps toward a greener energy future, having recently wrapped up its most ambitious energy storage tender to date. With nearly 10 GWh of standalone energy storage capacity awarded--more than triple the initial target--the country is making significant headway in reinforcing Bulgaria will finance 82 standalone battery storage projects worth over 1.15 billion leva (\$675 million) under its EU-funded procurement exercise named RESTORE. The selected projects will deliver a total usable battery energy storage system (BESS) capacity of 9,712.89 MWh, the Ministry of Energy said The Bulgaria's Ministry of Energy began accepting applications yesterday (21 August) in tenders for 3,000MWh of energy storage capacity. Called the National infrastructure for the storage of electricity from renewable sources (RESTORE), the programme seeks battery energy storage system (BESS) The Ministry of Energy in Sofia plans to launch a tender on September 2 for standalone energy storage systems. It issued the draft framework for public debate, which lasts one month. The government said it prepared EUR 589 million in subsidies for the construction and commissioning of a national Bulgaria has committed over 1.15

billion levs (\$675 million) to support 82 standalone renewable energy storage projects through its EU-funded RESTORE procurement initiative, as announced by the Ministry of Energy on April 17. These projects will deliver a combined usable energy storage capacity of Bulgarian tender awards nearly 10 GWh of energy The public call was open for projects equal to or greater than 10 MW with at least two hours of storage capacity, which will be primarily used in the frequency regulation markets. There was no minimum amount of financing per Energy Storage in Bulgaria Surges with 9.7 GWh This tender marks a significant milestone in Bulgaria's broader decarbonization agenda. The country has pledged to retire coal-fired power plants by and install an additional 3 GW of renewable capacity by . Bulgaria Is Promoting Standalone Battery Storage The deadline for submission of standalone battery storage project proposals was December 5, . The Bulgarian Ministry of Energy announced on December 6 that it has received 151 project proposals worth Bulgaria's Ministry of Energy opens 3GWh tender for This event will bring together key stakeholders from across the region to explore the latest trends in energy storage, with a focus on the increasing integration of energy storage into regional grids, evolving Bulgaria outlines EU-funded tender for standalone The draft for the RESTORE public call for support to energy storage facilities in the electricity transmission system was issued for public consultation. Bulgaria earmarked EUR 589 million for the endeavor, funded Bulgarian Tender Awards Nearly 10 GWh of Energy StorageThe chosen projects were evaluated for their ability to meet Bulgaria's energy storage needs while adhering to the program's rigorous standards. The high storage capacity Bulgarian tender for battery storage awards 9,713 A call for new energy storage capacity in Bulgaria has awarded 9,712.89 MWh of projects with a total investment value of BGN 1.149 billion (USD 675.8m/EUR 587.5m), the Balkan country's energy ministry said on Thursday.Bulgaria's 3 GWh standalone energy storage tender A total of 151 project proposals were submitted in Bulgaria's standalone energy storage procurement procedure named RESTORE, which is seeking to support the construction and commissioning of renewable energy Bulgarian tender awards nearly 10 GWh of energy Bulgaria's standalone energy storage tender, which aimed to procure at least 3 GWh of cumulative usable capacity, ultimately awarded more than three times that amount. EU's Largest BESS Project Now Online in BulgariaA battery energy storage system (BESS) described as the largest deployed to date in the European Union (EU) has been commissioned in Bulgaria. Officials with the country's Ministry of Energy said
