

## government procurement price of NMC battery storage in Argentina

The government's estimated investment for the projects is around \$500 million USD, with a required completion timeline of 12 to 18 months. The tender will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month. The government's estimated investment for the projects is around \$500 million USD, with a required completion timeline of 12 to 18 months. The tender will pay a fixed \$10/MW of electricity supplied and energy storage capacity bids must have a maximum cost of \$15,000/MW/month. Successful bids will be Argentina's AlmaGBA tender for the Buenos Aires metro area will pay a fixed \$10/MW of electricity supplied, with storage capacity bids capped at \$15,000/MW per month. From ESS News Argentina's Wholesale Electricity Market Administration Co. (CAMMESA) has published a contract template to guide Argentina's government said on Monday it has awarded contracts for 667 MW of capacity in its first tender dedicated to battery energy storage systems (BESS), exceeding its original 500-MW target by about 30%. Energy storage battery. Photo by Anna Vasileva These projects will be installed in Contract prices settled between \$10,161 and \$12,815 per MW-month, comfortably below the reference price of \$15,000/MW-month set by CAMMESA, the market's administrator. This pricing dynamic signals both growing competition among developers and the increasing economic viability of battery energy This week, the Argentinian government opened bids for the AlmaGBA tender, initiated in February to procure 500 MW of battery energy storage system (BESS) capacity for critical nodes in the Buenos Aires Metropolitan Area (AMBA) grid, enhancing reliability during peak demand. Fifteen companies Argentina has awarded 667MW of battery energy storage system (BESS) in its first tender under the AlmaGBA scheme. Nearly half of the volume submitted for the tender (1.3GW) has been awarded by the wholesale market operator CAMMESA (Compañía Administradora del Mercado Mayorista Eléctrico Sociedad Argentina's first energy storage tender receives 1,347 MW of bidsThe government's estimated investment for the projects is around \$500 million USD, with a required completion timeline of 12 to 18 months. The tender will pay a fixed Argentina publishes details of 500 MW battery tenderArgentina's AlmaGBA tender for the Buenos Aires metro area will pay a fixed \$10/MW of electricity supplied, with storage capacity bids capped at \$15,000/MW per month. Argentina's 1st BESS tender awards 667 MW of projectsArgentina's government said on Monday it has awarded contracts for 667 MW of capacity in its first tender dedicated to battery energy storage systems (BESS), exceeding its Argentina Awards 667 MW in First Battery Energy Storage In response to this robust demand and lower-than-expected pricing, the government expanded the award pool. Contract prices settled between \$10,161 and \$12,815 Argentina's First Energy Storage Tender Secures 1.35 GW of BidsAdministered by CAMMESA, the tender offers \$10 per MW for supplied electricity, with storage bids capped at \$15,000 per MW monthly. Contracts will run for up to 15 Argentina awards 667MW in first energy storage tenderCasa Rosada, seat of the Argentinian government. Awarded projects are expected to begin operations in the next 12 to 18 months. Image: Benjamin R. via Unsplash. Argentina Receives 1.3GW of BESS Proposals for First-Ever

## government procurement price of NMC battery storage in Argentina

Argentina's ambitious push toward grid modernization through battery energy storage has received an enthusiastic response, with CAMMESA (Compañía Administradora Argentina) awards 667 MW in inaugural battery storage tender. The government had established an award threshold at 94 % of the reference price - around \$14,100/MW/month - but exceptionally competitive bids led to an expansion of Argentina's Oversubscribed Energy Storage Tender. Although the Argentinian government has estimated that it will invest half a billion dollars of public funds, the project is being greatly supported by the private funds. Argentina advances 500 MW energy storage tender with US\$500 Argentina's Wholesale Electricity Market Administrator (CAMMESA) has published the contract template for the "AlmaGBA Storage" tender, which aims to add up to Energy Storage Systems (ESS) Policies and Guidelines.
