

government procurement price of backup power battery in China

The average bid stood at CNY 0.473/Wh (\$65/kWh). Public procurements in China continue to demonstrate exceptionally low price levels for lithium-ion phosphate (LFP) battery energy storage systems (BESS). State-owned EPC firm China Power Construction Group (Power China) recently concluded a 16GWh BESS supply tender, which resulted in extremely low prices amidst a squeezing of market share and increased buying power from state-owned companies, an S& P analyst told Energy-Storage.news. The tender for the design, manufacture, installation and 20-year operations & maintenance (O& M) of battery energy storage systems (BESS) for Power China's - China's Huadian announces winners in 6 GWh BESS On March 18, Huadian Group, one of the five largest state-owned power generation enterprises in China, released the list of the winning bidders in its procurement seeking a cumulative 6 GWh of battery storage. What Are The Implications Of \$66/kWh Battery Packs In China?China's battery packs plummet in price again. Hydrogen prices didn't decline and BNEF triples its estimates for future costs. The implications are huge.
