Do schools need a procurement plan?We require schools to follow the government procurement rules when planning a property project and approaching suppliers. Government procurement rules - New Zealand Government Procurement Projects valued under \$10,000 do not need a procurement plan. The property advisor might ask for a procurement plan or some procurement information. Should schools buy or lease solar panels?When evaluating costs, schools may consider a large capital investment upfront to purchase and install the solar panels, in comparison to leasing. Leasing solar panels means there are no upfront costs, and schools and kura pay a fixed price to the solar panel company, usually at a rate lower than existing energy costs. Eligible agencies and schools are required to join the secondary procurement process (SPP). This is a closed tender process to receive the service order (SO), including the pricing elements from the panel suppliers. Eligible agencies and schools are required to join the secondary procurement process (SPP). This is a closed tender process to receive the service order (SO), including the pricing elements from the panel suppliers. Eligible agencies and schools are required to join the secondary procurement process (SPP).
