

mobile ESS unit cost vs benefit calculation in Indonesia

What is the Indonesia Employment Cost Calculator? Whether you're a small business owner in Indonesia, a HR professional, or an individual employee, our Indonesia Employment Cost Calculator is an essential tool to simplify complex financial calculations and provide clear, concise financial insights. Are supplemental benefits mandatory in Indonesia? While not mandatory, supplemental benefits like private insurance, flexible work, wellness programs, and development support help attract top talent and boost employee retention in Indonesia's competitive job market. Mekari Talenta simplifies HR operations, while Mekari Flex empowers employees with customizable, on-demand benefits. Why do employers lend money to employees in Indonesia? It's not uncommon for employers in Indonesia to lend money to their employees - either as an advance salary or even a bulk amount as a loan. The purpose for the employee is to make a bigger purchase, such as a house or car. How should employers structure salary in Indonesia? In short, employers should structure the salary with 75% of the amount allotted for the basic pay, and the rest, 25% is allotted for the fixed and variable benefits that go along with the compensation package. When hiring employees from Indonesia, follow the Ministry of Manpower and Transmigration regulations. Are Indonesians paid too much? Indonesia has over 260 million people and is the 11th fastest growing economy in the world. This means that the country is laden with both non-specialist and specialist jobs. However, in many industries, Indonesians are paid too little. Many workers in Indonesia work long hours with no overtime pay. They also receive low wages. How is BPJS Kesehatan calculated? Similar to the social security program, BPJS Kesehatan is calculated from the monthly salary. The rate is 4%. Indonesian employees are entitled to 12 days of annual leave per year. If the employee has worked for less than a year, the number of annual leave days available is prorated (i.e. one day for every month worked).
