

rooftop solar battery supplier quotation in Australia 2026

Where can I buy a rooftop solar system? Find out what to look for in rooftop solar system retailers and installers. You can buy most rooftop solar systems from either: a solar retailer: you have a contract with a solar retail company that sells you a rooftop solar and/or battery system. The solar retailer then subcontracts an accredited installer to install and set up your system. What is an approved solar retailer? Approved sellers, or solar retailers, meet certain consumer protection standards that cover sales, quotes, contracts, installation, warranties and support. Approved sellers are committed to fair, transparent and quality service. You can find a list of approved sellers on the New Energy Tech Consumer Code website . Will rooftop PV installations continue to grow in Queensland after -32? Queensland is forecast to have continued steady uptake of rooftop PV installations until -32, with growth in the commercial sector forecast to offset saturation being expected to be reached in some residential areas. After -32, a rapid decline in annual installations is projected, as saturation is expected to be reached in most regions. Where can I compare solar panels in Australia? At Solar Choice, we're the place to go for an apples to apples comparison of local solar providers in your area. As the best service for solar panel comparisons in Australia, you'll be able to compare solar quotes for a range of different sizes. Does South Australia have a high penetration of rooftop PV? The state already has a high penetration of rooftop PV, so (because the modelling does not consider retrofit of storage to existing systems) relatively low penetration of installations combined with storage is forecast. South Australia currently has the highest penetration of residential rooftop PV of all the NEM regions. How many solar installers are there in Australia? We have published 89,345 uncensored reviews of 2,976 solar installation companies. Most importantly, over the last 16 years we have steadily built a network of 535 solar installers across Australia that we trust to provide quotes through this website. And we have turned away hundreds more.
