Oman's Nama Power and Water Procurement Co. received four bids from companies and consortia looking to develop the 500 MW solar project in Ibri, northwestern Oman. Image: Ahmed Nasser, Unsplash. How much will Oman's power sector invest in the next six years? Taken together with parallel plans for the implementation of a raft of Wind IPPs and combined cycle gas turbine (CCGT) power projects, total investment in Oman's power sector is set to balloon to well over \$5 billion over the next six years through to . Will Oman have a solar energy storage system? Additionally, PDO is finalizing plans for a 100 MW solar PV-based IPP, named the 'North Solar Storage IPP,' set to include Oman's first battery energy storage system (BESS). This BESS, using lithium-ion battery technology, will store electrical energy and supply a maximum of 100 MW peak power to PDO's grid during daylight hours. Why did the Sultanate of Oman buy a solar project? The Company earlier notified that, the procurement of this solar project is part of the Sultanate of Oman's government policy to diversify energy resources to meet the growing demand for electricity. Will Oman install a 280 MW solar plant in ? It will be located alongside the existing 500 MW Ibri II solar project, which was inaugurated in January after a 13-month construction period. PWP launched its fourth solar tender, for a 280 MW plant, last December. According to the International Renewable Energy Agency (IRENA), Oman had installed 672 MW of solar by the end of . Petroleum Development Oman (PDO), the country's biggest producer of Oil & Gas, plans to set up a new utility-scale solar-based power project, along with a first ever battery storage system, in the northern part of its Block 6 concession in the Sultanate of Oman. Petroleum Development Oman (PDO), the country's biggest producer of Oil & Gas, plans to set up a new utility-scale solar-based power project, along with a first ever battery storage system, in the northern part of its Block 6 concession in the Sultanate of Oman. Oman's Nama Power and Water Procurement Company (PWP) has announced that four energy companies are in the final stage of bidding for the 500-megawatt (MW) Ibri III Solar Independent Power Project (IPP). The shortlisted companies are Masdar from Abu Dhabi, Acwa Power from Saudi Arabia, EDF o Nama Power and Water Procurement Company (NPWP) carries out periodic auctions for the sale of I-REC for its various renewable energy projects for interested companies to participate in the auctions.
