

successful bid price of BESS project in Singapore 2026

How much does Bess cost? BloombergNEF recently noted a global average price for BESS (without PCS or EMS) of US\$125 per kWh, for example. Kubik suggested the tender's requirements implied it covered an AC block solution. Energy-Storage.news looked at the move towards PCS-integrated AC blocks in a recent article (Premium access). What is Sembcorp Bess project? The 200MW/285MWh Sembcorp BESS project on Jurong Island, Singapore. Image: Sembcorp Singapore's government and Energy Market Authority (EMA) have announced power sector and grid enhancements, including a possible expansion of Southeast Asia's biggest battery storage plant. How much did CGN new energy pay for Bess? In January, CGN New Energy procured 4.5 GWh of grid-forming BESS and 6 GWh of grid-following BESS. In the first group, the bids averaged CNY 0./Wh (\$84/kWh), while in the second one the average was CNY 0.489/Wh (\$67/kWh). What does Bess stand for? The tender for the design, manufacture, installation and 20-year operations & maintenance (O& M) of battery energy storage systems (BESS) for Power China's - projects was announced on 13 November, and the results were released last week. How much does a Chinese company bid? The average bid of the first six candidates was 0. yuan/Wh, while the bids of the three alternative companies were somewhat higher and stood at 0. yuan/Wh, 0.486 yuan/Wh and 0. yuan/Wh. The latest results follow in the footsteps of recent procurements which saw similarly low prices. Why is Bess becoming a primary technology utilised for power storage?" This cost decline has enabled BESS to become the primary technology utilised for power storage amid the advancing global energy transition and growing grid bottlenecks caused by intermittent renewables," the report read. ALSO READ: Rooftop solar battery attachments up 35.5% in Q4 According to local news reports, the tender attracted 76 bidders with quoted prices ranging from US\$60-82 per kWh, averaging US\$66.3 per kWh. Based on the 16GWh quantity, that implies a total contract value of roughly US\$1 billion. 6 GWh BESS tender with average bid at \$65/kWh In the latest tender, more than 80% of bidders quoted prices below CNY 0.5/Wh (\$69/kWh), highlighting the fierce competition in the world's biggest BESS market. China's Huadian announces winners in 6 GWh BESS The procurement exercise has attracted 67 battery energy storage companies but only six have emerged as winners. The average bid stood at CNY 0.473/Wh (\$65/kWh). Singapore's grid-scale BESS ready by The addition of BESS is part of PLP's commitment to supporting Singapore's energy transition. The battery system is expected to improve grid stability and enhance PowerChina receives bids for 16 GWh BESS tender The tender attracted 76 bidders, with quoted prices ranging from \$60.5/kWh to \$82/kWh, averaging \$66.3/kWh. Notably, 60 of the bids were below \$68.4/kWh, signaling competitive pricing trends in China's energy storage Cost, shipping, energy density drive move to 5MWh Prices are expected to increase nominally in , as shown in the chart above, before jumping more substantially in . That larger increase is primarily down to new tariffs imposed by the US on battery products from Singapore could expand SE Asia's biggest BESS and The proposed solutions include enabling more energy imports from abroad, and relying on a broad range of technologies within Singapore's borders, as well as upgrading the grid and speeding up connection
