Will PJM limit capacity prices in ? In January , PJM agreed to a settlement with a coalition of governors led by Pennsylvania Governor Josh Shapiro to limit capacity prices for the next two years (- and -). This includes: If you are interested in diving into the details, you can find the full docket here. Will PJM's Capacity Price be set for June - May ? However, there's additional complexity: Due to delays in PJM's capacity auctions, the capacity price for the June -May period hasn't yet been set. Utilities have temporarily relied on interim "capacity proxy prices" in their procurement auctions. How much does a megawatt cost in -? In the most recent auction for the - capacity market period, capacity prices surged to nearly ten times higher than the previous year. The price jumped from about \$29 per megawatt-day to nearly \$270 per megawatt-day - an unprecedented increase. Why are electricity prices going up in the PJM region? Many utilities in the PJM region buy electricity supply for their default service customers - those who haven't chosen an alternative supplier - through periodic procurement auctions. Prices determined by these auctions are already signaling sharp increases starting June due to rising capacity costs. The /27 BRA delivered historic capacity prices, reaching the FERC-approved price cap. The RTO-wide clearing price of \$329.17/MW-day represents a 22% increase from last year's BRA for /26, which itself was an 833% increase from /25.
