

successful bid price of solar plus storage project in Portugal 2025

How much will Portugal spend on energy storage projects in 2025? From ESS News Portugal's Ministry of Energy has announced that it has allocated EUR100 million (\$104.2 million) to 43 energy storage projects which should be installed by the end of 2025. A total of 79 applications were vying for grant support secured under the country's Recovery and Resilience Plan (RRP). Why is Portugal launching a solar energy storage project? This initiative aims to enhance the flexibility and stability of Portugal's power supply system amid its record-breaking solar electricity production. On July 31, the ministry announced the allocation of EUR99.75 million through a call for tenders to install energy storage projects totaling 500 MW. What is Portugal's Energy Plan for 2025? Portugal's updated energy plan targets 80 per cent renewable electricity by 2030 and 85 per cent by 2035. A total of 43 projects were selected from 79 applications in Portugal's energy storage procurement. What is the biggest energy storage grant in Portugal? The biggest grant was awarded to Solara4Phase4 to the tune of EUR 16.4 million. A total of 43 projects were selected from 79 applications in Portugal's energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR 20 million in public funding. What does Portugal's energy storage tender mean for the energy transition? Portugal's government has announced the outcome of an energy storage tender that will see the installation of 500 MW of energy storage capacity to support the country's energy transition. Energy storage battery. Photo by Anna Vasileva Which solar-plus-storage projects are available for public consultation? The projects listed for public feedback on the government's consultation portal include two solar-plus-storage sites. Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment Agency's Participa portal. According to the provisional results, unveiled last week, 43 projects have been selected out of a total of 79 applications to receive just below EUR 100 million (USD 104.4m). The successful projects will together add at least 500 MW of energy storage to the public electricity According to the provisional results, unveiled last week, 43 projects have been selected out of a total of 79 applications to receive just below EUR 100 million (USD 104.4m). The successful projects will together add at least 500 MW of energy storage to the public electricity A total of 43 projects were selected from 79 applications in Portugal's energy storage procurement. This included six projects from Spain's Iberdrola, which secured nearly EUR20 million (\$20.6 million) in public funding.
