

turnkey MW scale storage system EPC contract price in Australia

Does CSI solar have a turnkey EPC contract? Canadian Solar has announced that e-STORAGE, which is part of the Company's majority-owned subsidiary CSI Solar has been awarded a turnkey EPC contract for 100 MW / 200 MWh energy storage solutions by Fotowatio Renewable Ventures (FRV) Australia for its Terang energy storage project in Victoria, Australia. What is an EPC contract? An EPC Contract delivers these requirements in a single integrated package, which is one of the major reasons why EPC Contracts are the most common form of construction contract used in project-financed utility-scale solar projects. The key clauses in any construction contract are those that impact on time, cost and quality. What is a bankable EPC contract? A bankable EPC Contract is a contract with a risk allocation between the Contractor and the Project Company to the satisfaction of Lenders and their credit committees. What is a performance specification in an EPC contract? Performance specification: Unlike a traditional construction contract, an EPC Contract usually contains a performance specification. The performance specification details the performance criteria that the Contractor must meet. However, it does not dictate how they must be met. This is left to the Contractor to determine.
