

Are solar EPC contracts common in New Zealand? However, EPC contracts are not common in the domestic construction industry - there is no market 'standard' form in New Zealand. Consequently, in New Zealand the solar EPC contracts are either based on the FIDIC suite, or bespoke agreements used by private developers in other jurisdictions. Where is solar EPC based? Headquartered in Auckland, we operate across New Zealand. Latest news and insights. With 13 years of international experience in the solar industry, we are quickly becoming the leading solar EPC company in New Zealand. Should a project be delivered under an EPC or turnkey contract? One of the main drivers for and major advantages delivering a project under an EPC or turnkey contract, as opposed to adopting a multi-contract approach, is that project developers and project finance lenders have a single point of responsibility. Will EPC contracts provide for the handover of a solar facility? EPC Contracts will not provide for the handover of the solar facility to the Project Company, and the PPA will not become effective until all commissioning and reliability trialling has been successfully completed. Should you choose an EPC contract for a solar project? Given the significant monetary value of EPC Contracts, and the potential adverse consequences if problems occur during construction, the lowest price should not be the only factor used when selecting a Contractor. As noted earlier, an EPC Contract is one of a suite of agreements necessary to develop a solar project. Should a business purchase a solar system? Depending on your business's long-term energy strategy, financial goals and risk tolerance, you may prefer to enter a power purchase agreement (PPA) with a solar energy supplier, rather than purchasing a solar system outright. A PPA is effectively a long-term contract to purchase electricity. EPC contracting in the New Zealand solar market This article highlights key considerations for new entrants looking to enter into an EPC Contract in the New Zealand solar market. Commercial-scale solar in New Zealand | EECASolar engineering, procurement and construction (EPC) services for Aotearoa. We first entered the New Zealand market in through a joint venture between Ethical Power, Hive Energy and Solar South-West, called HES Aotearoa (HESA). Large Scale Solar NZ MW Large Scale Solar Kea Energy does everything from complete turn key systems, contracting, pile driving, wiring, designing and everything in between. If you buy a solar park from us we can Welcome to Endless Energy | The Intelligent Choice for Solar We prioritise designing and optimising solar panel systems for New Zealand's variable weather, using Tier 1 products to ensure maximum energy generation with minimal reliance on the grid, EPC Services EPC solar systems are designed with multiple safeguards to mitigate potential risks. By overseeing the entire operation, EPC companies can swiftly address issues, ensuring optimal Engineer, Procure, Construct Infratec is the leading constructor of utility scale solar PV in New Zealand.
